

LASER AND THERMAL CAMERAS

# METRICA FLASH 100 METERS TARGET CAMERA

---

## DETAILS

---

- Target camera, camera with viewfinder to see where you are measuring
- Double inclinometer (horizontal and vertical)
- Electronic vial
- Continuous measurement function, with max / min values always displayed
- Six Pythagoras functions
- Guided tracking
- Distances, surfaces, volumes
- Sum and subtraction of distances, surfaces and volumes
- Extractable end piece for diagonal measurement
- Measuring timer, auto shut off
- Sound function
- 100 memories
- PC Connection/Charging Cable
- Rechargeable batteries
- 1/4" tripod thread
- With strap, in box

# TECHNICAL DATA SHEET

| PARAMETER                  | VALUE                      |
|----------------------------|----------------------------|
| Range *                    | 100 m                      |
| Accuracy                   | + / - 20 mm                |
| Angle measure              | ± 90°                      |
| Battery life               | 30.000 single measurements |
| Laser type                 | 635 nm                     |
| Laser power                | classe II                  |
| Dust/Waterproofing         | IP 54                      |
| Working temperature        | 0° C / 40° C               |
| Batteries                  | NiMh 3X1.2V 800mAh         |
| Dimensions (mm)            | 130 x 56 x 29              |
| Weight (without batteries) | 130 g                      |
| Tripod thread              | 1/4"                       |

## ARTICLES OF THE RANGE

| Ref.  |  | L            |  |
|-------|---|--------------|--|
| 61186 | 8001066611867   | 0,05 ÷ 100 m | 1  |
